RE: Save the Date for Air Conditioning Town Hall, Thursday, September 10, 2026, at 4:00 pm PDT

Dear 22 Station Homeowner

On September 10, 2026, at 4:00 pm PDT, please Save the Date for a 22 Station Town Hall on the subject of Air Conditioning in the Residential Units. The 22 Station Board engaged [ACCO Engineered Systems](#) to design AC solutions for the different Residential Units so that a Residential Unit Owner has the opportunity to elect to have ACCO purchase and install contemporary, functional, and efficient AC for his/her Unit. 22 Station and ACCO are coordinating the roll-out of these offerings. For Fall 2026, the roll-out envisages an early adopter pilot phase with limited availability.

The purpose of the Town Hall is to present the offerings and have representatives from ACCO and the product manufacturer answer questions. Further information on the Town Hall, the offerings, and a survey of Owner interest and questions is available at www.22station.com/actownhall.

We look forward to your participation in the Town Hall.

A copy of this letter is available at <https://22station.com/communications/>

Sincerely,

22 Station Board of Directors
